

Meccanoid G15 KS w_o Social

The Meccano Maker System logo appears on a black background.

ON SCREEN TEXT: MECCANO
 MAKER SYSTEM

Quick cuts reveal shadowy robotic parts moving as light flashes over them. Electronic chiming and robotic whirring can be heard as futuristic music plays.

ON SCREEN TEXT: #MECCANOID MECCANOIDG15KS

The camera zooms out and lights shine to reveal the Meccanoid G15 KS robot standing before a white backdrop. The Meccanoid moves its arms around and speaks.

ON SCREEN TEXT: MECCANOID G15 KS

MECCANOID: Hey, I am the Meccanoid G15 KS. I was created to interact with human beings and learn from them.

A man sits beside the Meccanoid and they high-five. A whip crack sounds in the background. The Meccanoid continues speaking.

MECCANOID: High five. I come installed with a technology called Learned Intelligent Motion.

ON SCREEN TEXT: LIM PROGRAMMABLE

A close-up reveals the chest portion of the Meccanoid with four buttons beneath a red letter "M." A hand presses one of the buttons, and it lights up red.

MECCANOID: It's simple to program me.

The man releases his hand from the Meccanoid's programming buttons and begins manually lifting the Meccanoid's arms and speaking slowly.

MAN: I make programming robots fun and simple.

MECCANOID: It can record and play back animations...

Cut to the Meccanoid standing in front of the white backdrop and repeating the man's motions and words.

ON SCREEN TEXT: REMEMBERS MOVEMENT
 AND AUDIO

MECCANOID: I make programming robots fun and simple. Process voice recognition...

A hand holds a tablet device as another hand moves the Meccanoid's arm and head on the tablet's screen. The Meccanoid, standing in the background, moves as the hand selects motions on the tablet.

MECCANOID: And communicate with smart devices through Bluetooth.

The man presses a smartphone into the Meccanoid's chest as the camera turns on. The man's face is visible on the phone. He smiles.

MECCANOID: Motion capture enabled.

The man and the Meccanoid stand facing each other in front of the white backdrop. The man moves his hands up and down as the Meccanoid imitates his movements. The man's body turns black with white dots along his arms as he continues moving his arms and turning his body slowly. Electronic beeping sounds as funky music plays.

ON SCREEN TEXT: MIRRORS YOUR MOVEMENTS

The man walks up to the Meccanoid, who is standing before the white backdrop, and takes it apart, then builds it into a dinosaur-shaped robot in a time-lapse sequence.

ON SCREEN TEXT: ENDLESS BUILD POSSIBILITIES

The dinosaur-shaped Meccanoid moves around, chomping its mouth and raising its arms up and down. Funky electronic music plays.

The man watches and smiles as the dinosaur-shaped Meccanoid moves around.

Cut to the Meccanoid, now shaped into a vehicle-type robot. It spins to the side and picks up an empty plastic bottle with a claw-like mechanism, depositing it to the side.

ON SCREEN TEXT: EDUCATIONAL ROBOTICS PLATFORM

The Meccanoid spins around as a crowd cheers.

Cut to the Meccanoid, back into its original form, waving and speaking. Its eyes flash various colors, and it glides out of the frame.

MECCANOID: Thank you. Thank you. That was fun. Let's do it again sometime. Self-destruct mode activated.
