

# VERIZON **EDGE**

Verizon EDGE is a program that provides the flexibility to upgrade early and pay for a device over 24 months rather than paying for it all up front. The Verizon EDGE program also provides lower up-front cost, no financing charge, no early termination fees, and discounts on monthly smartphone access.

## How It Works

Once a Verizon EDGE eligible device is selected, a Target Mobile Wireless Team Member will run a credit check to determine the required down payment. Based on a credit check, well-qualified guests can join for \$0 down. Eligible guests can make an optional down payment, not to exceed 50% of the device's full retail value. Guests will then make a monthly payment for 24 months or until the phone's full retail price is paid off completely.

After 30 days, if you've paid for at least 75% of the phone, you'll have the option to EDGE Up to a new phone without any upgrade fees. To be eligible for the EDGE Up option, the original phone purchased using Verizon EDGE must be returned in good working condition and have no significant damage as determined by Verizon Wireless.

## Verizon EDGE Benefits

When you buy your smartphone on Verizon EDGE, you'll receive exclusive savings on your wireless plan. The full retail price is broken down into 24 affordable monthly payments and added to your bill. Save \$10 on your smartphone monthly line access on The MORE Everything Plan with 500 MB to 8 GB of data. Save \$25 per smartphone monthly line access for 10 GB or higher plans.
