

Target Specialty Pharmacy directly assists guests that are prescribed specialty prescriptions for chronic and complex conditions. Our highly trained pharmacy professionals work personally with you to ensure proper understanding of your treatment and aid in day-to-day health management. If you have any questions, our pharmacy team is here to answer them.

Preparation

Processing Your Prescription

Once we receive your prescription, we talk with your insurance plan and doctor to ensure we have the required authorizations to dispense your medication. As soon as it's ready, we'll contact you, so you can pick it up at your local Target Pharmacy.

Benefits Investigation

We'll diligently examine your benefits and will work with your insurance plan and doctor to get you on therapy as soon as possible. We'll also help you understand your coverage and explain your out-of-pocket costs.

Consultation

Introduction & Prescription Education

A team member will call you to learn about your condition so that we can map out a plan just for you. We'll discuss your prescription and answer any questions you may have about dosage, proper use and possible side effects.

Co-Pay Assistance

We'll discuss your needs and help determine if you're eligible for co-pay assistance offered through a variety of funding programs. We'll help you find the appropriate program(s) and when possible, assist you in enrolling.

Ongoing Support

Support Services

We'll reach out to you at regular intervals to see how you're doing. We'll also provide access to highly trained pharmacy professionals who will answer your questions and provide expert advice, whether you're in the store or on the phone.

Refill

When you're ready for a refill, we'll call you to schedule a convenient pickup at your local Target. If needed, we'll work with you and your doctor to renew your prescriptions. As always, we'll also check in to see how you're feeling and if we can offer any assistance.
